

# Binocular clip-on magnifier

## ■ RIDO-Clip

- 2 joined lenses with convergence supporting prisms
- Clipped on the spectacles of the user
- 3 different magnification powers
- Hard coating
- Solid case included

In comparison with standard magnifiers this clip-on magnifier has some advantages:

- Lightweight
- Wide field of view
- Convergence supporting prisms
- Easy handling, simply clipped on the spectacles
- Both hands remain free for working
